

Client Case Study : How Reviva Tooling Systems Transformed Attendance & Payroll Management with ASC HRMS

Client: Reviva Tooling Systems Private Limited

Location: Manesar, Haryana

Industry: Automotive Manufacturing (Molds for seating systems & interior components)

I. Background

Reviva Tooling Systems is a leading manufacturer of molds for seating and automotive interior components. With multiple teams operating across their facility, maintaining accurate attendance data and ensuring timely payroll processing had become a recurring challenge. Manual registers led to data inconsistencies, delays, and frequent follow-ups, directly affecting payroll accuracy.

II. The Challenge

- Inconsistent attendance data in manual register.
- Manual data collection delays affecting payroll processing
- Need for a touchless and maintenance-free solution
- Eliminate proxy attendance and ensure real-time accuracy

III. Our Solution: AI-Based Face Capture Attendance

ASC HRMS implemented a fully **touchless, AI-driven Face Capture Attendance System** using a mobile device, eliminates the need for biometric hardware and manual register.

IV. How it works:

- Employees stand in front of a mobile camera
- System captures and verifies face using AI
- Attendance is marked instantly and synced to ASC HRMS

- Attendance data flows directly into payroll without manual intervention

V. Key Benefits Delivered

- ✓ Zero hardware dependency
- ✓ Touchless & hygienic
- ✓ Real-time accuracy
- ✓ Centralized live attendance data
- ✓ Smooth and error-free payroll processing
- ✓ Cost-effective and maintenance-free

VI. Impact

With ASC HRMS, Reviva Tooling Systems now has a **streamlined attendance system and a fully automated payroll workflow**. Accurate real-time attendance ensures smooth monthly payroll without manual corrections, reducing HR workload significantly.

★ Client Testimonial

“ASC HRMS has completely transformed the way we manage attendance and payroll. The AI-based face capture feature is fast, accurate, and extremely convenient for our employees. We no longer depend on biometric devices or manual corrections. Payroll now runs smoothly every month with almost zero errors. This solution has truly added value to our operations. We truly appreciate the continuous support and commitment from the ASC team.”
